

MODERN MARINE

APRIL NEWSLETTER

FROM THE DESK OF JASON

It's hard to believe spring is already in full swing and April is here! I hope you've been able to enjoy some of the warmer days and a little extra sunshine lately. The kids and I recently had the chance to explore Costa Rica, and it was such a refreshing time to unplug, spend time together, and soak in some incredible scenery. Trips like that always remind me how important it is to slow down every now and then, especially before the busy boating season kicks into high gear.

As we head into April, things are picking up quickly around here as we prepare for Memorial Day and all the warm lake days just around the corner. There's an excitement in the air this time of year with longer days, rising temperatures, and the anticipation of getting back out on the water.

Back at the dealership, our team is working hard to help everyone make the most of the season ahead, whether that means getting you into a new boat or making sure your current one is ready to go. We've still got a few brand new 2026 models arriving, and there are some great deals on our pre-owned inventory.

If you haven't already, now is the perfect time to get your boat prepped so you're ready to hit the water as soon as the weather cooperates. Our service team is here to help make that process smooth and stress free.

We're grateful for the opportunity to be part of your boating season and can't wait to see you out on the water soon.

Here's to sunshine, lake days, and making great memories this spring!

Jason

3 THINGS TO DO BEFORE BOATING SEASON

CHECK YOUR BATTERY AND ELECTRONICS

- Make sure your battery is fully charged
- Test your electronics, including lights, gauges, and navigation systems, before your first trip out.

INSPECT YOUR SAFETY GEAR

- Double check life jackets, fire extinguishers, and emergency equipment to ensure everything is onboard and in good condition.

SCHEDULE SPRING SERVICE

- A quick check from our service team can help catch small issues before they turn into bigger problems once you're out on the water.
